

The letter of notification shall contain the following information: Name of the carrier, dates of clearance, manifest numbers assigned at the various Customs ports at which cargo was laden and the final disposition of all cargo. If the vessel returns to the port at which the cargo was originally laden, the letter of notification shall also include the bill of lading numbers shown on each export declaration filed at the time of clearance.

(b) For shipments by air where the Shipper's Export Declarations are filed at the port of lading, if it becomes necessary because of an emergency to unload part or all of the cargo at another port in the U.S. Customs area (other than the port in Puerto Rico or U.S. Possession which is its final destination), the Shipper's Export Declarations filed at the port of lading need not be cancelled if the merchandise is reloaded on another plane at the second port within a reasonable time and proceeds to its country of destination. If there is unreasonable delay in reloading, the originally filed declarations should be cancelled and new declarations should be filed at the second port of lading. If for any reason, the merchandise remains permanently in the United States, the Customs Director at the first port of lading must be notified to cancel the Shipper's Export Declarations which have been filed. This provision is not intended as an exception from the requirements of §30.12 as to the place at which Shipper's Export Declarations are required to be filed; it is intended only for cases where an emergency requires an unintended unloading after the requirements of §30.12 have been met.

§§ 30.35—30.36 [Reserved]

§ 30.37 Exceptions from the requirement for reporting complete commodity detail on the Shipper's Export Declaration.

(a) Where it can be determined that particular types of U.S. Government shipments, or shipments for Government projects, are of such nature that they should not be included in the export statistics, and further, where no detriment to the export control program would be involved, special arrangements can sometimes be made to

waive compliance with specific portions of the requirements of §30.7 with respect to the reporting of detailed information on the Shipper's Export Declaration. Such exceptions will be made only upon application by the exporter and specific authorization to the Customs Director and the exporter for the particular project or shipment, approved by both the Bureau of the Census and the Office of Export Administration, and will be conditioned upon a prescribed identification which must appear upon the declarations. The particular types of shipments for which such exceptions may be possible are as follows:

(1) Shipments to a contractor under a Department of Defense or other armed service contract for the construction of facilities for the use of the U.S. armed services.

(2) Temporary exports by or to U.S. Government agencies.

(3) Shipments of supplies and material to contractors in the Panama Canal Zone for the construction and/or maintenance of the Panama Canal Zone and its facilities.

(b) Special exemptions to specific portions of the requirements of §30.7 with respect to the reporting of detailed information on the Shipper's Export Declaration may also be granted by the Bureau of the Census with the concurrence of the Office of Export Administration for certain Department of Defense shipments, or shipments made on behalf of the Department of Defense, to foreign governments under the cash reimbursable provisions of the Mutual Defense Assistance Program (military sales), if and when arrangements have been made for the Bureau of the Census to obtain the desired statistical information other than through the reporting of complete commodity detail on the Shipper's Export Declaration.

§ 30.38 [Reserved]

§ 30.39 Authorization for reporting statistical information other than by means of individual Shipper's Export Declarations filed for each shipment.

(a) The Census Bureau, with the concurrence of appropriate government agencies, may authorize exemptions
